All rights to the DNG Products, other than the limited use rights granted in this Agreement, are specifically reserved and held to and by Licensor. DNG Products purchased prior to December 1, 2010 were published by The Old Schoolhouse Magazine, LLC but are otherwise subject to the terms of this License agreement.

Use of DNG Products is governed by the terms of this End User License Agreement (“License”) and any related DNG Multi-User License Agreements (“Site Licenses”) or private agreements in writing between Licensor and third parties. DNG Products are sold and distributed for use by authorized end users (“Permitted Users”) according to the terms of the License only. Any person accessing or using DNG Products is a “User” bound by this License. Non-permitted uses by Users who are not also Permitted Users constitutes an actionable breach and violation of this License. Unauthorized use, reproduction, copying, sharing, sale, transfer or distribution of DNG Products is prohibited.

1. Limited Use License. All use of DNG Products is subject to this License, relevant terms of use, and any applicable Site Licenses (collectively, “Other Applicable Agreements”), the terms of which are hereby incorporated into this License by reference as if fully set forth herein. DNG Products may be used by Permitted Users only. A “Permitted User” is (a) an individual who has purchased one or more DNG Products, (b) an individual who receives one or more unopened, properly purchased DNG Products as a gift, (c) individuals who receive licensed copies of DNG Products pursuant to a valid Site License, or (d) immediate family members of individuals mentioned in (a), (b) or (c) who also share a residence with such individual. Licensor hereby grants each Permitted User a limited, non-exclusive license to download, save, install and utilize one (1) copy of the purchased DNG Products for personal use by the Permitted User and members of the Permitted User’s immediate family only. DNG Products may be installed on one (1) or more computers or electronic devices belonging to or under the personal control of the Permitted User, provided that the relevant DNG Product is used on no more than one (1) computer or electronic device at any given time. Notwithstanding anything in this Agreement to the contrary, a DNG Product may be installed and/or used on more than one (1) computer or electronic device simultaneously only if all simultaneous users are siblings and the minor children of a Permitted User who are using the DNG Product for simultaneous private homeschooling study or review. Downloading, installation and/or use of DNG Products constitutes the user’s acceptance of and consent to be bound by this License, all Other Applicable Agreements and applicable law.

2. No Duplication or Resale. Users may make one (1) copy of each DNG Product purchased for archival purposes only (“Archival Copy”). Aside from the Archival Copy, Users may not duplicate, copy, photocopy, reproduce, modify, translate, disassemble, distribute, derive or edit source code, or create derivative works based on DNG Products, and may not remove any copyright or other notices placed on or in DNG Products. Users may not install DNG Products on additional computers or electronic devices or make copies of DNG Products for purposes of sharing them with additional users other than (a) members of a Permitted User’s immediate family who share a residence with the Permitted User, or (b) as permitted by the express terms of a Site License or Other Applicable Agreement between the copier and Licensor. Permitted Users subject to Other Agreements which permit production of additional copies of DNG Products may make and/or distribute only the limited number of copies permitted by those Other Applicable Agreements. Failure to comply with the terms of this paragraph constitutes a material breach of this License resulting in immediate, automatic termination of the License, and may subject breaching individuals and entities to civil and/or criminal liability.

3. No Sharing, Transfer or Resale. This License and DNG Products purchased in connection therewith are personal to the original Permitted User(s) and may not be copied, shared or transferred to third parties except as expressly permitted by this License and Other Applicable Agreements, if any. Users may not sell, rent, lease, license, loan, or transfer the DNG Products, copies of the DNG Products or use of the DNG Products to any other person or entity except as expressly permitted by this License or Other Applicable Agreements, if any. Users may not use or exploit part or all of any DNG Product for any commercial purpose or in any group educational setting outside the Permitted User’s home or individual homeschool without the advance written consent of Licensor. Users are prohibited from selling or reselling DNG Products, including without limitation “used,” partially used or previously owned DNG Products. **Resale of DNG Products without the advance written consent of Licensor constitutes a material breach of this License.**

4. Termination. This License is effective until terminated. Users may terminate the License at any time by (a) destroying or erasing all hard copies of DNG Products and (b) removing all DNG Products from the User’s computer(s), electronic devices and backup drive(s), provided that subsequent purchase, repurchase, installation, reinstallation, and/or use of DNG Products constitutes the User’s renewed agreement to be bound and abide by this License. Licensor reserves the sole discretion to terminate this License with respect to any User(s) who fail to comply with the terms and conditions of this License and Other Applicable Agreements (“Breaching Users”). Breaching Users must destroy their copies of DNG Products and remove DNG Products from their computer(s), electronic devices and backup drive(s) immediately upon receipt of notice that Licensor has terminated their License to use the DNG Products.

Introduction

By Amanda Bennett

It's Saturday, and that's football day across most of the United States! Having grown up in a football household, I lived in the midst of football mayhem and can throw a football better than you would imagine. My dad played football as a quarterback when he attended college, and football was a fun part of my childhood. From attending neighborhood flag football games to Friday night high school games, we have many fun football memories. You and your family can share those same kinds of memories, and this new study can help with learning the basics of the game and much more.

Many of our children are interested in football, playing the game as well as watching it, and supporting a favorite team! Like many sports, football opens up a fascinating window for fun and exciting learning for children. Your child will learn about the science of football—the physics of throwing the football, the trajectory of a kicked football, and more. How do football cleats work? The history of football will introduce the origins of the game, as well as the history of the football itself.

From learning about the NFL teams to learning the roles of the offensive and defensive lines and special teams, your child will have fun with the basics of the game. With this new Download N Go™ title, the focus is on using the very popular game as a launching point for learning more about the sport, geography, history, science, and much more. With this study/lapbook, your child will investigate all kinds of things about football, including game basics, how to play, types of equipment, and the story behind some of the popular players. Each day he will explore and investigate, creating and adding more learning components to his *Football Frenzy* lapbook—building a wonderful reminder of all that he is learning to be enjoyed for years to come.

With the Download N Go™ unit studies, you are about to begin a new kind of learning experience. Each study is one week in length, having five daily lessons with lapbook components for each day. The name, Download N Go™, comes from the concept that these studies are ready to use as soon as you have downloaded them. No preparation or waiting time or other expensive resources are required. A few inexpensive items are needed for the lapbook—a simple file folder, a glue stick, safety scissors, brass brads, and crayons or markers. That's it—simple, effective, and what a way to learn!

From developing an understanding of the basics of football to learning about the various positions, plays, and scoring, this is going to be an exciting adventure. Your child will be learning about:

- The history of football.
- How football is played.
- Great football players.
- The science of football.

So get ready for the adventure, and thanks for spending a week with us as we take off with *Football Frenzy*. While you are enjoying this study, look ahead to *Volatile Volcanoes*—the next title in the Download N Go™ Series that continues to grow!

Introduction to Lapbooking

By Laura Clark

What exactly is a lapbook? A lapbook is an exciting hands-on learning tool. Using a few inexpensive items—a simple file folder, a glue stick, safety scissors, brass brads, and crayons or markers—your child builds a wonderful keepsake to capture some of the lessons learned during this Download N Go™ study.

Each Download N Go™ unit study includes creative and colorful lapbooking templates ready for you and your child to print, cut out, and complete together. Download N Go™ lapbooking components are integrated with the daily lesson and reinforce what your child learns using hands-on activities. With Download N Go™ lapbooking components, your child will make pop-ups, vocabulary mini books, accordion timelines, pamphlet graphs, and so much more.

Lapbooks can be assembled in several ways; the elements fit together like pieces of a puzzle, attached to the file folder. One option is to have your child complete each lapbook component as it is encountered in the lesson and store them in an envelope for assembly on Day 5. Another option is to glue each component in the lapbook as the activity is completed. Either way, your child will love this amazing, handmade lapbook.

It is one of the most popular games in America, and what a fun topic for this week!

Before we jump into today's learning, let's take a few minutes to watch these videos about football:
